TRANSITION INFORMATION

The EI Provider provides services to eligible children from birth to age three. Prior to turning three your early intervention program will talk with you about the service options available in your community. Your three-year-old child may be eligible for special education preschool services or you may consider other community-based services. A Transition Plan will be developed to help your family move from early intervention services to other services where appropriate. Discussions regarding transitioning out of early intervention and the development of a Transition Plan include multiple steps. These steps are completed at various points in time throughout your child's enrollment in early intervention. The Transition Plan will be completed in its entirety prior to your child's third birthday.
